

VaneLabs

Open-source CI cache that cuts build times 10x

Founder: Marcus Vane · Amsterdam

PROBLEM

CI pipelines are slow and expensive

- Teams burn hours daily waiting on rebuilds
- Cache invalidation is unsolved for most stacks
- CI spend grows faster than headcount

PRODUCT

Drop-in distributed build cache

- One line to integrate; works with major CI systems
- Content-addressed artifact cache across runs
- Open-source, self-host or managed

TRACTION

Explosive early growth

\$50K MRR

- 300 paying teams on the managed plan
- Launched 3 weeks ago on Show HN (400 upvotes)
- \$50K MRR reached in first 3 weeks

TEAM

Solo technical founder

- Marcus Vane — infra engineer, ex-CI vendor
- Built the cache engine solo over 6 months

MARKET

Developer tooling for CI is large and growing

- CI/CD spend rising with every engineering org
- Land with OSS, expand to enterprise seats

ASK

Raising \$1M pre-seed

- Hire 3 engineers; SOC2; enterprise features
